| Request                 | Response  |  |
| Customer order received | Reply to order with notice attachment.  |  |
| Replacements            | Products under warranty will be honored.  |  |
| Support                 | Once the product enters into the retirement program the product<br>will be continued to be <u>sold and supported</u> for a period of two<br>years. This period should provide the customer ample time to<br>make any adjustments in utilizing our products. In many cases<br>the product will be superseded by other technology with<br>increased benefits or have backward compatibility options.<br>After the initial two years, the product will enter into a 4 year<br><u>support only</u> stage. This means the product will be repaired or<br>replaced based solely on the product parts availability or part<br>obsolesce. After the four year period the product will be officially<br>retired and unavailable for sale or support. Products can be re-<br>activated based on renewed commercialization criteria. |  |
